

Tatsfield Parish Council

Report Title: Communication Report	Agenda Item: 8b
Meeting: TCAC	Date: 3rd February 2014
Report by: Cllr. Peter Kerry	Document Number:

Summary

The Group is continuing to keep abreast of developments to ensure that the communications in the village are up to date.

Q. Which of the appraisal recommendations does the TPC wish the TCAC to address?

- Facebook and Twitter are being used and updated regularly. Additional support to input information is being sought.
- The Group reviewed the developments in the area of social media and agreed to continue as we are.
- An article on the provision of broadband in the village has been produced.
- It was agreed to publish items as soon as possible. This means that unless there are special considerations, electronic publication will not be delayed to align with the village magazine.
- It was agreed that the use of Streetlife.com would not be of any great benefit.
- The website continues to be updated regularly. The front page is looking rather dated, but there were limitations as to what can be done with the present system. It is understood that SCC are planning improvements to this. It is noted that there are other possible providers (e.g. www.2day.ws) that we might consider.
- It was agreed to change the Grasshopper logo on the front page to the Tatol sign.
- The village appraisal will be discussed at the Group's April meeting.
